

LOCAL HEPATITIS A OUTBREAK

AMONG PERSONS WITHOUT A HOME

Remain vigilant for hepatitis A in persons with history of being homeless or substance use.

Do **NOT** discharge to street or shelter if confirmed or suspected hepatitis A.

Offer hepatitis A vaccine to all persons with a history of being homeless or substance use.

Immediately call Public Health for suspected or confirmed hepatitis A in a person with history of being unhoused or substance use:

- **213-240-7941** (M-F 8am-5pm)
- **213-974-1234** (afterhours and holidays)
