Public Information Meeting
Presenting Special Report 224, Radon Potential in the Palos Verdes Area

Monday, December 15, 2014 at 6 p.m.
Peninsula Center Library Community Room
701 Silver Spur Road, Rolling Hills Estates, CA 90274

The California Department of Public Health (CDPH) Indoor Radon Program invites interested community members to attend a public information meeting for the presentation and discussion of *Special Report 224, Radon Potential in the Palos Verdes Area, California*. The information meeting will be held Monday, December 15, 2014 at 6pm at the Peninsula Center Library Community Room, 701 Silver Spur Road, Rolling Hills Estates, CA 90274.

Radon is a naturally occurring radioactive gas that has been found in homes all over California. CDPH, in partnership with the California Geological Survey, conducts radon screening surveys which measure radon gas levels in homes throughout the State. *Special Report 224* presents the findings of the screening survey conducted in the Palos Verdes area. The report is available for viewing at Palos Verdes Public Library branches and can be downloaded at <http://www.cdph.ca.gov/HealthInfo/environhealth/Pages/RadoninCalifornia.aspx>.

The meeting will include a discussion of the findings in *Special Report 224*, facts about radon gas, and information on testing and fixing radon problems in homes. For additional information about the meeting, please call 916-449-5674 or email radonprogram@cdph.ca.gov.
